

Tranquility® Product Family

Mind Map User Guide

Use the 8 steps below as a guide to learn how Tranquility's superior approach to moisture management will result in better outcomes at your facility.

- 4 The Present**
In "The Present" example, the Tranquility Product Family makes a positive impact on patient satisfaction, quality of care and staff morale.
- 5 Tranquility Product Family**
Tranquility, Select and ComfortCare products offer the right level of absorbency to meet individual needs ultimately saving facilities money.

- 3 Regulation/Star Rating**
Today's regulatory realities are creating a need to think differently about incontinence. *There is a better solution.*

- 2 The Past**
Can you relate to "The Past" example? Are these situations occurring in your facility?

- 1 Your Challenges**
Think about some of the most significant challenges impacting your business today.

- 6 The Hidden Costs of Incontinence Care**
Using poor performing incontinence products will result in increased costs due to more linen changes, skin breakdowns, wound healing complications and low employee morale.

- 7 Making the Transition**
With leadership support, a "Champion" and effective education and training your facility will be brought to "The Present" experience.

- 8 Summary**
With the Tranquility Product Family, your business will thrive.
