

# Application

## Individual Standing

1. Open the brief and fully extend it.
2. Place the brief on the back of the body and pull it to the front between the legs for a snug fit.

3. Wrap the back part of the brief over the front and fasten the bottom tape tabs angling them upward. Then fasten the top tape tabs.

## Individual Sitting Down

1. Open the brief and fully extend it. Place brief on chair tape tabs up.

2. Line up the top edge of the brief with the hip bone and gently pull the bottom wings up between the legs for a snug fit.

3. Wrap the back part of the brief over the front and fasten the bottom tape tabs angling them upward. Then fasten the top tape tabs.

## Individual Lying Down

1. Open the brief and fully extend it.
2. Gently turn the resident away from you. Position the brief under the tailbone and line the top edge with the hip bone.

3. Roll the bottom wings of the brief under the resident and gently roll the resident onto his or her back. Pull the wings out from underneath and pull the brief up between the legs.

4. As you hold the brief in place, attach the top tapes to the top edge of the brief. Then fasten the bottom tape tabs, angling them upward.
