INCONTINENCE CARE GUIDE

Our products help manage even the most challenging incontinence care needs with higher-performing absorbent protection – so you or those in your care can enjoy the comfort, confidence and freedom to live well and focus on the things that matter most. Inspired by personal experiences with loved ones who deserved better incontinence solutions, our family-owned company relentlessly perfects the most absorbent products – **delivering Real Life Protection for real, everyday demands.**

Why Tranquility?

A Personal Focus

We offer a breadth of products in a range of performance levels and sizes to address unique needs and help alleviate personal struggles.

Compassion-Driven Innovation

Through rigorous research and testing, we never stop refining better ways to support healthier, more fulfilled lives and higher quality care.

Commitment to Care

Family-minded to the core, we are committed to the needs of Veterans and service members, ensuring they may live with the confidence, comfort and continual support they deserve.

We design incontinence solutions with **Real Life Protection** that meets the demands of a Veteran's daily activity. With class-leading moisture management, capacity under pressure and leakage control, our products are clinically proven to manage even the most challenging incontinence care needs, while providing significantly longer-lasting protection. This improves the quality of life of Veterans – while dramatically reducing the strain on staff and resources.

We Hold Cups, Not Drops

We get it, using drops to show absorbency can be confusing.

Tranquility values transparency. This is why we state our product's full retention capacity on every package, in cups.

No more misleading raindrops. No more second-guessing how much each product can hold.

We make it easy to select the right product to meet individual needs.

 **TRANQUILITY.**

VS

Leading Brands

We measure our products using **Capacity Under Pressure**, a proprietary test method that measures the product's retention capacity (the amount of fluid absorbed by the product that cannot be forced out with pressure), providing a more accurate representation of the product's absorbency under daily use. International Organization for Standardization testing (ISO 11948-1:1996) measures capacity as the amount of fluid a product can absorb without any pressure applied.

Proudly serving all 18 VISNs in the following facilities:

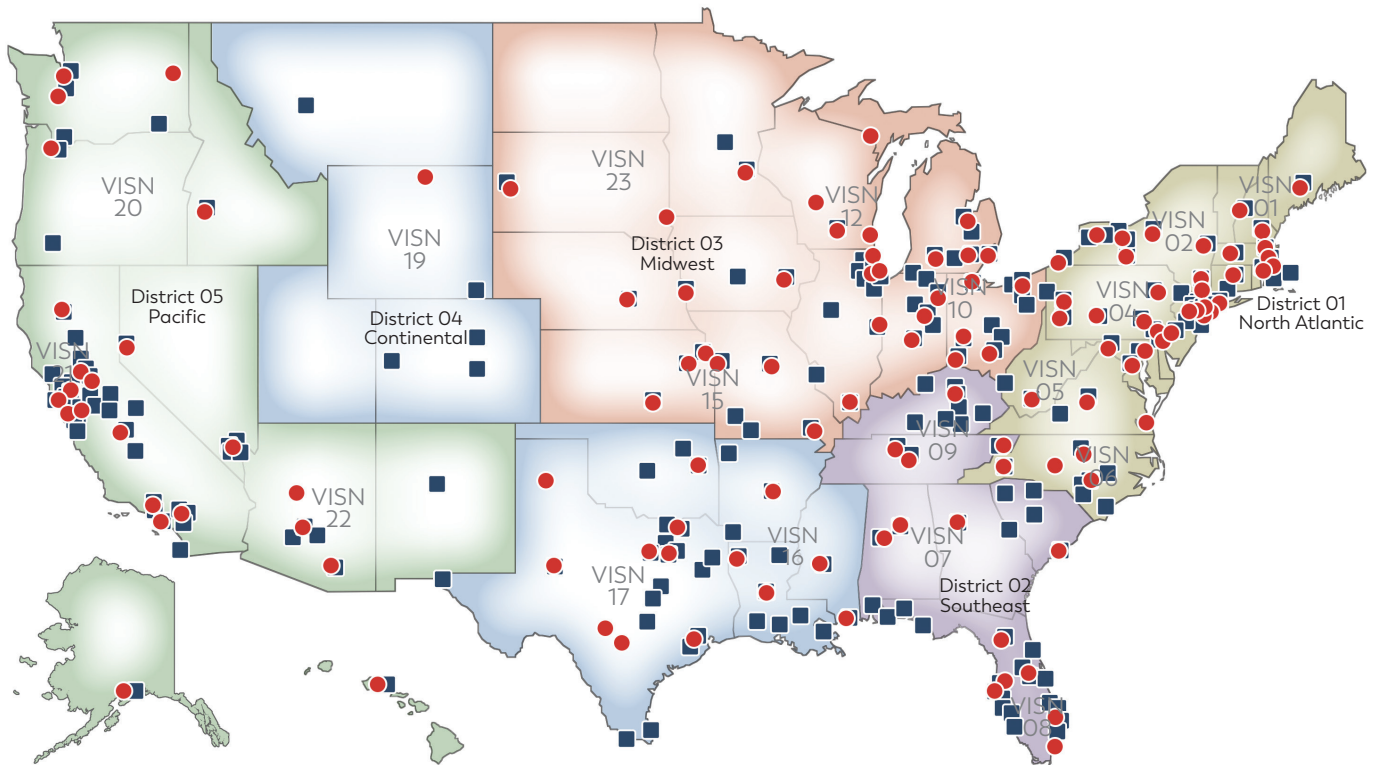

**Inpatient
VA Medical Centers**

**Outpatient
VA Clinics**

Our simplified product lineup and new packaging

are designed to make it easier to select the right product, in the correct size, with the best features to manage a variety of incontinence care needs.

premium

Our highest-performing range of incontinence products. Find the ideal balance of protection, comfort and design to meet individual needs, with a diverse selection of sizes, types and absorbency levels.

essential NEW!

High-quality products with reliable performance to support comfort and confidence for those with moderate to heavy incontinence.

Previously Known As

Incontinence Product Guide

We believe Veterans deserve an incontinence solution that addresses their unique journey, so we offer a wide selection of products, styles and sizes to meet your individual needs.

Incontinence Products

 **Pads, Liners and Guards** are absorbent pads designed for light to moderate incontinence. An adhesive strip holds the pad securely in regular underwear to provide discreet protection.

 **Booster Pads** are flow-through pads designed to add absorbent capacity to a primary incontinence product. The flexible design allows for personalized positioning to add protection when and where it is needed – ideal for pairing with protective underwear or brief-style products.

 **Protective Underwear** are pull-on products that fit like regular underwear. The soft, elastic waistband provides a discreet and comfortable fit.

 **Underpads** provide an additional layer of protection to safeguard surfaces, such as bedding, furniture and wheelchairs, from heavy leakage and odor.

 **Briefs** are tab-style products that provide the highest level of protection and coverage. Available in either a poly (plastic) backsheet or a clothlike backsheet for added comfort and breathability. Briefs are designed to contain both urinary and bowel incontinence.

Incontinence Types

Stress:

Leakage of small amounts of urine due to sudden pressure on the bladder, such as coughing, sneezing, laughing or exercising.

Urge:

A sudden urge to urinate that is so strong it cannot be held long enough to reach the bathroom.

Mixed:

A combination of the symptoms of stress and urge incontinence.

Overflow:

Involuntary urination. Bladder muscles are unable to contain urine under pressure. Feeling of inability to empty bladder completely.

Reflex:

Involuntary urination without sensation of a full bladder. Unaware of the need to urinate.

Functional:

Inability to get to the bathroom fast enough due to mobility or cognitive impairments.

Features and Benefits

Compassion-driven innovation starts with you. Our research team is committed to learning what matters most to our customers and pairing that with the latest technology available to develop solutions that meet the unique needs of Veterans.

LEAKAGE CONTROL

Absorbency target zones combined with other features, such as Kufguards®, gentle leg elastics and moisture-proof materials, are designed to secure leaks and maintain confidence.

ODOR REDUCTION

Superabsorbent core wicks away fluid, neutralizing pH and reducing odor for discretion.

SKIN HEALTH PROTECTION

Breathable sides combined with our superabsorbent core support an ideal microclimate that neutralizes pH and keeps skin dry.

ADDITIONAL CAPACITY

Additional capacity extends the wear time of the primary product.

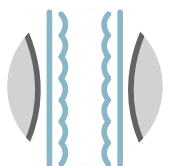

SOFT COMFORT

Soft, clothlike layer is gentle against skin.

SECURE PLACEMENT

Adhesive strip secures product in place to prevent sliding.

KUFGUARDS®

Inner leg cuffs channel fluids into the core, helping to contain high-volume episodes.

CLOSURE TABS

Advanced tape system securely fastens the brief while allowing for multiple openings.

BREATHABLE SIDES

Allows air to circulate around the body, promoting skin integrity.

OVERNIGHT

Maximum absorbent capacity for extended or nighttime protection.

WETNESS INDICATOR

Yellow lines turn blue when product reaches capacity to indicate change is needed.

LATEX-FREE

All Tranquility products are latex-free for skin safety and comfort.

premium

What is a Booster Pad?

Booster pads have a flow-through design allowing them to fill to capacity before passing additional moisture into a primary incontinence product. Booster pads should always be placed inside another disposable incontinence product that has a moisture-proof backing. **Do not use with regular underwear.**

Booster pad placement is important. **The pads can be placed in targeted areas where additional absorption is needed.**

Primary Garment – The pad's adhesive side should face out, away from the body. Make sure the pad is fully contained within the primary incontinence product; no part should extend beyond the edges.

For Women – Place the pad more toward the bottom.

For Men – Place the pad more toward the front.

Booster pads can be folded and even doubled for added protection, but should never be cut.

TopLiner® Booster Pads **MAXIMUM**

Thin design allows for placement in target areas where additional absorption is needed.

ABSORBENCY:

10.9 oz/322 mL (Size Regular)

Flow-Through Design | Clothlike | Adhesive Strip | Latex-Free

Item	Size	Length/Width	Capacity	Case Count	Best Suited for Host Garment Sizes	Formulary Status

2711	30" x 36"	34.0 oz/1005 mL	40 (4 bags of 10)	●

*Product should be used in accordance with Safe Patient Handling Guidelines. Lay printed side down against bed, chair or other surface.

premium

ThinLiner Moisture Management® Sheets

100% breathable, soft, clothlike sheets reduce skin-on-skin friction. Collects, absorbs and retains moisture.

Breathable | Clothlike | Latex-Free

Item	Length/Width	Absorbency*	Case Count	Formulary Status
3190	6" x 10"	6.0 oz/177 mL	200 (20 bags of 10)	
3191	6" x 14"	8.5 oz/251 mL	200 (20 bags of 10)	

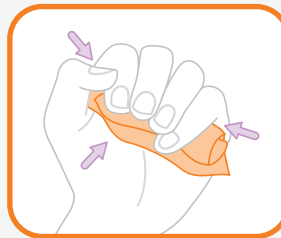

*Moisture absorbency; not capacity under pressure.

Did You Know?

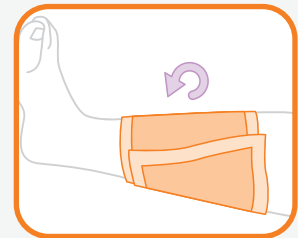

ThinLiner Moisture Management Sheets offer multiple applications and uses. They are ideal for tucking, folding and wrapping in or around skin folds, the groin area, under breasts – wherever light-to-moderate moisture is present.

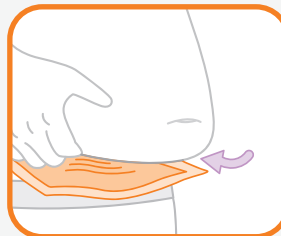

ThinLiner Sheets can be folded to fit various sizes and applications, but should never be cut.

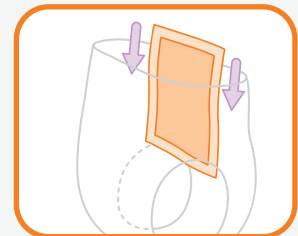

Relieves tightened digits

Collects wound exudate

Wicks away moisture

Absorbs loose stool*

*ThinLiner Sheets should always be placed inside another disposable incontinence product that has a moisture-proof backing. Do not use with regular underwear.

How to Measure

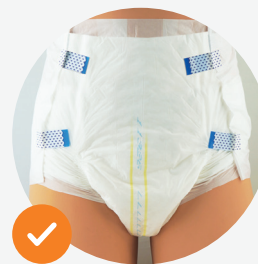

Use a tape measure to measure in inches the **widest part of the body between waist and hip**. Use this number to determine product size.

Briefs Size Guide

Size	Waist/Hip	Weight	Women's Pant Size	Men's Pant Size
X-Small	18" - 26"	42 - 90 lbs	0 - 3	18 - 26
Small	24" - 32"	85 - 100 lbs	4 - 6	24 - 32
Medium	32" - 44"	100 - 150 lbs	8 - 12	32 - 44
Large	44" - 58"	150 - 200 lbs	14 - 18	44 - 58
X-Large	56" - 64"	200 - 250 lbs	18 - 24	56 - 64
2XL	60" - 80"	250+ lbs	26 - 28	60+
3XL	64" - 96"	250+ lbs	28+	64+
4-5XL	70" - 108"	250+ lbs	28+	70+

Good Fit

Brief should fit snugly with the placement of the tape tabs **on the hips** and no gaps around the legs.

Too Big

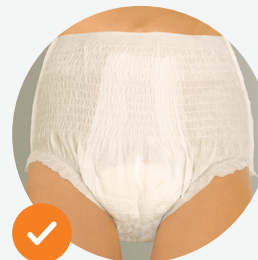

Too Small

Protective Underwear Size Guide

Size	Waist/Hip	Weight	Women's Pant Size	Men's Pant Size
X-Small	17" - 28"	65 - 85 lbs	0 - 3	17 - 28
Small	22" - 36"	80 - 125 lbs	4 - 6	22 - 36
Medium	34" - 48"	120 - 175 lbs	6 - 12	34 - 48
Large	44" - 54"	170 - 210 lbs	12 - 18	44 - 54
X-Large	48" - 66"	210 - 250 lbs	18 - 24	48 - 66
2XL	62" - 80"	250+ lbs	24+	62+

Good Fit

Underwear should fit snugly **touching the crotch** with no gaps around the legs.
