# In Their Own Words

The evaluations are in, and caregiving professionals say Tranquility® superabsorbent incontinence products help to produce better outcomes for their residents while making their jobs easier. Read more about it – in their own words.

## OUTCOMES

SIGNIFICANT IMPROVEMENTS IN RESIDENTS' HEALTH OUTCOMES, LEADING TO BETTER QUALITY OF LIFE

### Reduced skin issues

"Skin breakdown has improved a lot."

"I've seen a reduction in skin sores and prevention of moisture issues."

### Greater confidence

"Family members would say their loved one had their independence back because they felt safe with Tranquility."

### Improved sleep and mood

"Residents have been sleeping longer ... which allows them to be more active during the day."

"Almost all of them commented about how dry they stayed all during the night. I loved knowing that my residents were happy the whole night and felt dry, longer."

## STAFF SATISFACTION

REDUCED STAFF LABOR TIME AND BURDEN

### Security

"Tranquility gives us peace of mind when we don't get there in time."

### Fewer linen changes

"When we switched to Tranquility, we went from 30-40 bed changes per week to maybe 5-6."

### Reduced odor

"We used to smell the urine all the time, but Tranquility took the odor away; the rooms smell so much better."

## THE BOTTOM LINE

"Using Tranquility reduces the amount of work I have and makes my job easier."
