**FAMILY OWNED
AND OPERATED
for 3 Generations**

Incontinence products made in the USA from domestic and imported materials (except item #2382 and #3101).

THE TRANQUILITY® DIFFERENCE

We Hold Cups, Not Drops

We get it, using drops to show absorbency can be confusing. Tranquility values transparency. This is why we state our product's full retention capacity on every package, in cups.

No more misleading raindrops. No more second-guessing how much each product can hold. **We make it easy to select the right product to meet individual needs.**

We measure our products using **Capacity Under Pressure**, a proprietary test method that measures the product's retention capacity (the amount of fluid absorbed by the product that cannot be forced out with pressure), providing a more accurate representation of the product's absorbency under daily use.

Product Absorbency Protection

Capacity may vary by size or style; the average adult releases 8-12 oz per void.

 = 8 oz

MAXIMUM

Up to 34.0 oz/1005 mL

SUPER

Up to 25.0 oz/740 mL

HEAVY

Up to 19.0 oz/562 mL

MODERATE

Up to 13.5 oz/400 mL

Product Types

Tranquility designs incontinence solutions that address your unique journey, by offering a wide selection of products, styles and sizes to meet your individual needs.

Pads, Liners and Guards

Absorbent pads designed for light to moderate incontinence. An adhesive strip holds the pad securely in regular underwear to provide discreet protection.

Protective Underwear

Pull-on products that fit like regular underwear. The soft, elastic waistband provides a discreet and comfortable fit. Protective underwear is for moderate to maximum incontinence protection.

Briefs

Tab-style products that provide the highest level of protection. Designed to contain both urinary and bowel incontinence. Available in either a poly (plastic) backsheet or a clothlike backsheet for added comfort and breathability.

Booster Pads

Flow-through pads add absorbent capacity to your primary incontinence product. The flexible design and adhesive strip allow for personalized positioning to add protection when and where you need it – ideal for pairing with protective underwear or brief-style products.

Underpads

Provide an additional layer of protection to safeguard surfaces, such as bedding, furniture and wheelchairs, from heavy leakage and odor.

Features and Benefits

We never stop refining our products to support healthier, more fulfilled lives and higher-quality care. Your feedback guides us in developing new features with benefits that matter to you.

LEAKAGE CONTROL

Absorbency target zones combined with other features, such as Kufguards®, gentle leg elastics and moisture-proof materials, are designed to secure leaks and maintain your confidence.

ODOR REDUCTION

Superabsorbent core wicks away fluid, neutralizing pH and reducing odor for your discretion.

SKIN HEALTH PROTECTION

Breathability combined with superabsorbent core supports an ideal microclimate that neutralizes pH, keeps your skin dry and traps odor.

NOT MADE WITH NATURAL RUBBER LATEX

All Tranquility products are latex-free for your skin's safety and comfort.

BREATHABLE SIDES

Allows air to circulate around the body, promoting skin integrity.

100% BREATHABLE

Engineered with materials that contain fluid while allowing heat and humidity to escape.
