INCONTINENCE CARE GUIDE

May 2026

Our products help manage the most challenging incontinence care needs with higher-performing absorbent protection – so you or those in your care can enjoy the comfort, confidence and freedom to live well and focus on the things that matter most. Inspired by personal experiences with loved ones who deserved better incontinence solutions, our family-owned company relentlessly perfects the most absorbent products – **delivering Real Life Protection for real, everyday demands.**

.....

Why Tranquility?

A Personal Focus

We offer a breadth of products in a range of performance levels and sizes to address unique needs and help alleviate personal struggles.

Compassion-Driven Innovation

Through rigorous research and testing, we never stop refining better ways to support healthier, more fulfilled lives and higher quality care.

Commitment to Care

Family-minded to the core, we are committed to the needs of Veterans and service members, ensuring they may live with the confidence, comfort and continual support they deserve.

Experience the victory of Real Life Protection.

Tranquility stands beside you to provide the relief **Caregivers** deserve and the freedom **Veterans** have earned, for years to come.

Battling incontinence? You're not alone.

The **VA Community** faces significant issues with incontinence, related injuries and risks.*

Servicemen age 55 and younger are **3x more likely** to report urinary incontinence than men who never served

18.6%

of all male Veterans experience some form of incontinence (3.37 million Veterans in the U.S.)

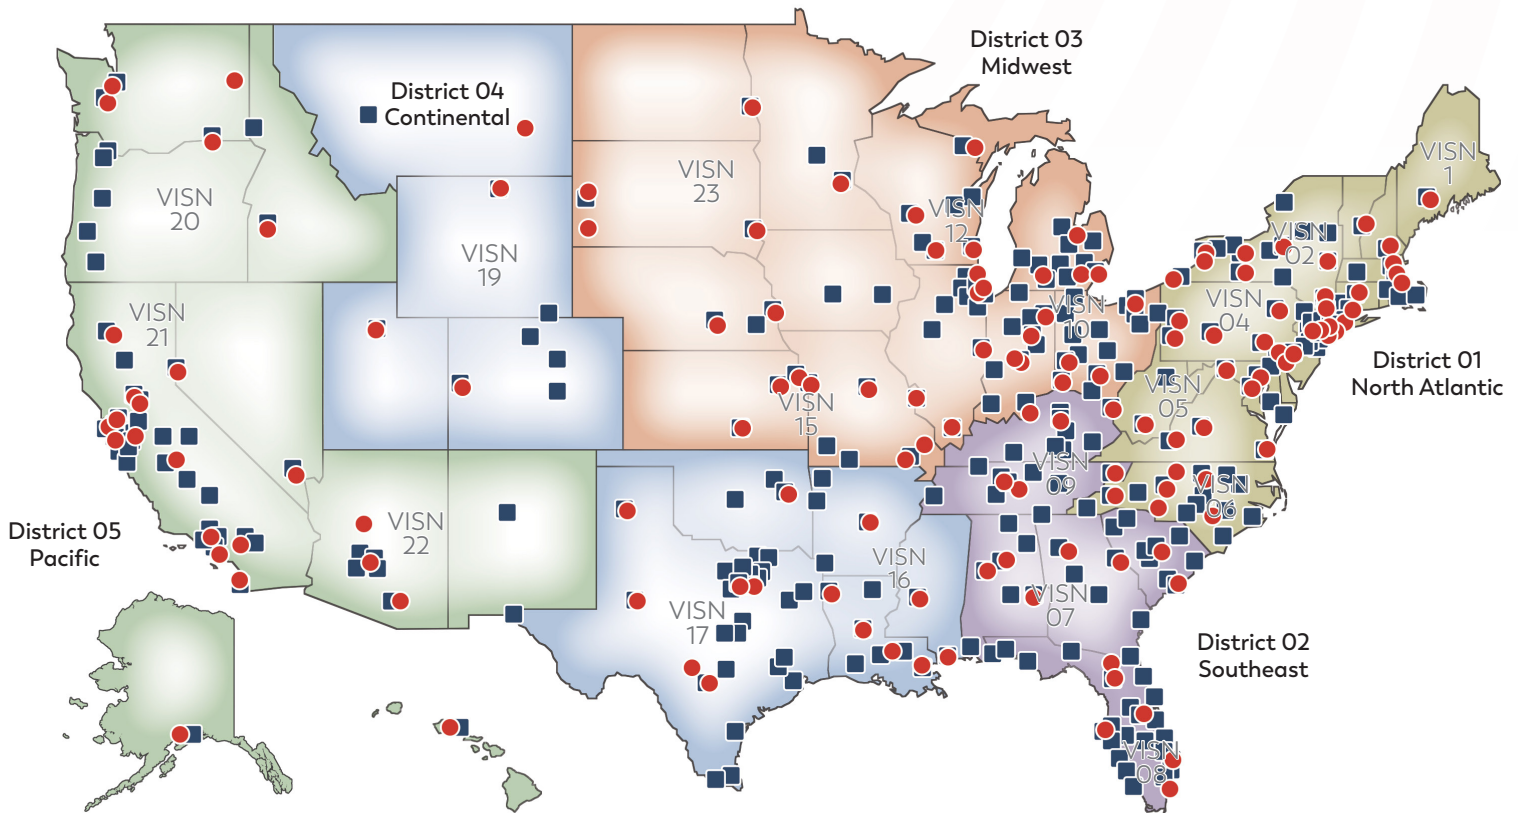

1 in 3 younger female Veterans report overactive bladder, stress urinary incontinence and/or painful bladder symptoms

* Male Veteran Stats: <https://www.reuters.com/article/us-younger-male-vets/younger-male-vets-may-be-at-raised-risk-for-incontinence-idUSBRE9780TE20130809>
Female Veteran Stat: <https://www.urologyhealth.org/home/educational-materials/loss-of-bladder-control-poster>

Trusted and proudly serving **all 18** VISNs in the following facilities:

Incontinence care to benefit your entire organization

Veterans

- Improved sleep
- Better skin integrity
- Reduced slip/fall risk

Staff

- Decreased changes, exposure and injury risk
- Reduced burnout

Communities

- Lower overall costs
- Enhanced satisfaction scores and ratings

To learn more about the positive impact Tranquility can have on your organization, please visit TranquilityClinical.com

Our commitment to provide Real Life Protection means that Tranquility products absorb and contain their stated fluid capacity, no matter how much pressure is applied to the product. Whether you're sleeping, sitting or on-the-move, you can rely on our clinically proven design to protect you, so you can live freely and confidently with fewer worries.

THE TRANQUILITY DIFFERENCE

We hold cups, not drops.

We get it, using drops to show absorbency can be confusing. Tranquility values transparency. This is why we state our product's full retention capacity on every package, in cups.

No more misleading raindrops. No more second-guessing how much each product can hold. **We make it easy for you to understand which product you need and feel confident in the product you choose.**

We measure our products using **Capacity Under Pressure**, a proprietary test method that measures the product's retention capacity (the amount of fluid absorbed by the product that cannot be forced out with pressure), providing a more accurate representation of the product's absorbency under daily use.

Choose your color-coded protection level

MAXIMUM	Up to 34 oz/1005 mL	
SUPER	Up to 25 oz/740 mL	
HEAVY	Up to 19 oz/562 mL	
MODERATE	Up to 13.5 oz/400 mL	

= 8 oz Capacity may vary by size or style; the average adult releases 8-12 oz (237-355 mL) when they urinate.

Features and Benefits

Compassion-driven innovation starts with you. Our research team is committed to learning what matters most to our customers and pairing that with the latest technology available to develop solutions that meet the unique needs of Veterans.

LEAKAGE CONTROL

Absorbency target zones combined with other features, such as Kufguards®, gentle leg elastics and moisture-proof materials, are designed to secure leaks and maintain your confidence.

ODOR REDUCTION

Superabsorbent core wicks away fluid, neutralizing pH and reducing odor for your discretion.

SKIN HEALTH PROTECTION

Breathability combined with superabsorbent core support an ideal microclimate that neutralizes pH and keeps your skin dry.

ADDITIONAL CAPACITY

Additional capacity extends the wear time of your primary product.

SOFT COMFORT

Soft, clothlike layer is gentle against skin.

SECURE PLACEMENT

Adhesive strip secures product in place to prevent sliding.

100% BREATHABLE MATERIALS

Ensures a barrier to liquid while allowing air to flow through and heat and humidity to escape, for optimal skin health protection.

BREATHABLE SIDES

Allows air to circulate around the body, promoting skin integrity.

CLOSURE TABS

Advanced tape system securely fastens the brief while allowing for multiple openings.

KUFGUARDS®

Inner leg cuffs channel fluids into the core, helping to contain high-volume episodes.

WETNESS INDICATOR

Yellow lines turn blue when product reaches capacity to indicate change is needed.

NOT MADE WITH NATURAL RUBBER LATEX

All Tranquility products are latex-free for your skin's safety and comfort.

Incontinence Product Guide

The journey to managing incontinence is based on individual needs. The first step is understanding the type and severity of incontinence a person is experiencing. This helps determine which product category, size and protection level is right for them.

INCONTINENCE TYPES

Stress:

Leakage of small amounts of urine due to sudden pressure on the bladder, such as coughing, sneezing, laughing or exercising.

Urge:

A sudden urge to urinate that is so strong it cannot be held long enough to reach the bathroom.

Mixed:

A combination of the symptoms of stress and urge incontinence.

Overflow:

Involuntary urination. Bladder muscles are unable to contain urine under pressure. Feeling of inability to empty bladder completely.

Reflex:

Involuntary urination without sensation of a full bladder. Unaware of the need to urinate.

Functional:

Inability to get to the bathroom fast enough due to mobility or cognitive impairments.

INCONTINENCE PRODUCTS

Pads, Liners and Guards

are absorbent pads designed for light to moderate incontinence. An adhesive strip holds the pad securely in regular underwear to provide discreet protection.

Booster Pads

are flow-through pads designed to add absorbent capacity to a primary incontinence product. The flexible design allows for personalized positioning to add protection when and where it is needed – ideal for pairing with protective underwear or brief-style products.

Protective Underwear

are pull-on products that fit like regular underwear. The soft, elastic waistband provides a discreet and comfortable fit. Protective underwear is for moderate to maximum incontinence protection.

Underpads

provide an additional layer of protection to safeguard surfaces, such as bedding, furniture and wheelchairs, from heavy leakage and odor.

Briefs

are tab-style products that provide the highest level of protection, designed to contain both urine and bowel. Available in either a poly (plastic) backsheet or a clothlike backsheet for added comfort and breathability.

premium

SmartCore® Briefs

MAXIMUM

The smart choice for healthy skin, thanks to maximum fluid retention combined with breathable sides that allow damaging heat and humidity to escape.

“We have been using Tranquility disposable briefs for several years now. The wound care nurses have had several competing brands trialed over the years and we have yet to find one that keeps residents as dry as Tranquility. The briefs, along with education provided by our Tranquility rep, have decreased moisture-associated injuries and fungal infections greatly.”

*Because of its full-fit design, this item works best with tape-tab briefs.

ABSORBENCY:
13.6 oz/403 mL (Size Contour)

What is a Booster Pad?

Booster pads provide extra protection. They have a flow-through

design allowing them to absorb an initial amount of fluid before allowing additional fluid to pass through to the primary garment. Booster pads should always be placed inside another disposable incontinence product that has a moisture-proof backing. **Do not use with regular underwear.**

Booster pad placement is important. **The pads can be placed in targeted areas where additional absorption is needed.**

Primary Garment – The pad’s adhesive side should face out, away from the body. Make sure the pad is fully contained within the primary incontinence product; no part should extend beyond the edges.

For Women – Place the pad more toward the bottom.

For Men – Place the pad more toward the front.

Booster pads can be folded and even doubled for added protection, but should never be cut.

Underpads

premium

Did You Know?

Underpads are typically used to protect mattresses and furniture from urine damage and reduce linen laundry. They also can protect other surfaces, including wheelchairs, vehicle seats and the floor beneath a portable or bedside toilet.

Skin Health Hero

ThinLiner Moisture Management Sheets offer multiple applications and uses.

They are ideal for tucking, folding and wrapping in or around skin folds, the groin area, under breasts – wherever light-to-moderate moisture is present.

ThinLiner Sheets can be folded to fit various sizes and applications, but should never be cut.

*When pairing the ThinLiner Sheets with a disposable incontinence product, ensure that the host garment has a moisture-proof backing. **Do not use with regular underwear.**

Relieves tightened digits

Collects wound exudate

Wicks away moisture

Absorbs loose stool*
